

Got Tdap Shot?

No Shots – No School

New Law: AB354 – Whooping Cough Immun.

The Tdap will be required at schools in California.

Beginning July 1, all students entering 7th through 12 grades will need proof of a Tdap booster shot for whooping cough **BEFORE** starting school.

This requirement can be met by receiving one dose of Tdap vaccine on or after the 7th birthday. **Parents, it's very simple – your child has to have this shot or Ontario Christian School will have no choice but to turn your child away from our schools until proof is provided.**

Please understand that this is a state requirement and all students throughout the state are required to abide by it.

Methods to get the required Tdap Immunization:

- **Make an appointment with your family doctor**
- **For a Public Health Clinic appointment please call (800)722-4777**

In order to avoid the last minute crowd and possible vaccine shortage we encourage you to make arrangements now.
