

# FAB FRIDAYS

OC Educational Options offers Friday classes from 8:15-12:15 on our elementary campus. Each week, students participate in cooperative learning activities which enhance various educational goals.

They will also experience the following activities on a rotating basis:

## STEM

Student groups will experience hands-on activities which center around science, technology, engineering and math concepts.

## Living History Projects

Create items from yesteryear and learn about history from the age of exploration through 1850. Students create history-based projects and fun games are incorporated to instill an appreciation for the past.

## Explorations in Art

Students will participate in a variety of artistic endeavors in visual arts with various mediums. Famous artists will be discussed as well as how art has changed over the course of time.

## Theater Arts

Students will interact in various aspects of theater arts as well as learn about theater throughout history. Students will learn basic speech techniques, theater terms and will get to try their acting abilities through dramas.
